DETAILED ACTION

Receipt is acknowledged of papers submitted under 35 U.S.C. 119(a)-(d), which papers have been placed of record in the file.

Election/Restrictions

1. Applicant's election without traverse of Invention II, claims 12-21 in the reply filed on 06/14/2006 is acknowledged.

Claim Rejections - 35 USC § 112

2. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

3. Claims 12-21 rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention. The scope of the claimed combination is not ascertainable based on the format of the claim language. The apparatus claim 12 is dependent upon method claim 1. Hence, it is not known exactly which element is positively claimed in the combination. It is required that the apparatus claims be rewritten to include positively identified elements along with the functionalities of said elements.

Claim Rejections - 35 USC § 102

4. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

5. Claims 12-21, as best understood are rejected under 35 U.S.C. 102(b) as being anticipated by Baker 6,157,889.

Baker '889 discloses an apparatus per claimed invention. The apparatus comprises a controller for guiding a dump truck during loading. The apparatus comprises means for stopping the dumper in the loading area in a predefined position so that material transported by a loader can be emptied in said truck. The controller includes means for automatically guide the loader in an emptied area of the truck for loading.

6. Claims 12-21, as best understood are rejected under 35 U.S.C. 102(b) as being anticipated by Parsons 3,964,620.
